Zarchiver Apk

What is Zarchiver Apk ?

Zarchiver APK is an Android application designed for efficient archive file management. In our day today life we frequently use archive folders in our devices to manage the storage and save the space on the device. This application allow users to compress the large folders into more manageable sizes and extract the compressed files and get the content when we needed.

When files are stored in compressed formats such as 7-zip, rar, etc we are unable to use them unless they are extracted. Traditionally, these operations handle by popular desktop applications like WinRAR, 7-Zip, and WinZip. Zarchiver fills the gap by offering similar functionality directly on Anroid devices. It allows users to easily compress, decompress, and manage archive files directly on their mobile phones.
